

Dear Mayor Daley,

The city's lakefront is very pretty, but I think more should be added there. I have some ideas of how it could look in the future. Maybe more zoos. Like a zoo in a big open space. The zoo could also have foreign animals there like ostriches and kangaroos.

There could also be maybe a miniature amusement park or something like that. Like a mini version of Six Flags Great America. But the roller coasters won't be massive or huge or anything.

Also, there could be a roller skating rink. It will be medium sized too. It will have a really big snack machine. It will also have a vending machine, a soda machine, and a taco and hot dog stand. There will be a place to rent roller skates and little lockers. The renting skates will be white and red wheels.

I hope you like my ideas.
