Mayor Richard M. Daley
City Hall
121 N La Salle 5th floor
Chicago, IL 60626

Dear Mayor Daley:

Our plan for Chicago is to take homes off of busy streets. They will be replaced by buildings, malls, and shops.

This will be used by the people who live on busy streets. They won't get hit or hurt by cars because cars will not be in front of their house.

This will help the people of Chicago be not going

to the hospital.

This will help the whole city by people will be safer. They can also get to work easier. There will be more side streets and you could walk to work because it will be on the busy streets.

This will be located on all busy streets in Chicago.

This will take about ten years or so because we have to take houses away and rebuild buildings for businesses and stores.

Too many people get hurt on busy streets. Please use our idea!

Respectfully,

Edison Park Elementary
