Mayor Richard M. Daley  
City Hall  
121 N. LaSalle 5<sup>th</sup> floor  
Chicago, IL 60602

Dear Mayor Daley:

Are you familiar with Daniel Burnham because he is the reason that we have such clean and beautiful parks. We want to be the reason some of those parks have farms next to them. We are going to share our plan with you!

Our plan is to make a farm in every neighborhood of Chicago. There will be horses for kids to ride.

The people who are going to use this are the people who work inside of markets, grocery stores and any other stores with produce.

This will help Chicago. The trucks keep on polluting our sky. If this idea happens it will help stop global warming. It will also make it easier to walk out-side and get the food.

This will help the whole city because pollution is stinking up the atmosphere with farms this will help the environment.

This will be located in every neighborhood in the city of Chicago. It will be in the open areas like behind a grocery store.

This will take 3 to 4 years because we need to plant the crops & prepare the animals.

This will help Chicago as well as everyone in it including animals because it is not good to breath in stinky air and you could get fresh produce.

We think this is a great idea.

We think this is a great idea  
we hope you do to.

Respectfully,

Edison Park Elementary
