Mayor Richard M. Daley
City Hall
124 N. LaSalle 5th Fl.
Chicago IL 60602

Dear Mayor Daley:

Our plan for Chicago is to make an express-way for electric cars. Electric cars will be faster if you go on this express way.

Everyone who buys electric cars will use this express way. Almost everyone will use this because express ways will be allowed to go faster than cars with gas.

This will help people of Chicago because they will not use gas and that will help nature.

It will help the city as a group because it doesn't hurt the earth. Everyone will not have to smell the stinky gas.

These express way will be located all over the city.

It will take about 20 to 25 years because we have to make these express ways and that is a lot of work.

We would like to make electric cars go all over the world one day because it will help stop global warming.

Thank you for reading our letter.

Sincerely,

Edison Park Elementary
