Mayor Richard M. Daley
City Hall
121 N. La Salle 5th Fl
Chicago Ill 60602

Dear Mayor Daley:

We have decided that
it would help Chicago
to have more trains from
the city to other states.

The people who will
use these trains citizens
around the country.

This will help Chicago
because people can go to
other places without using
a whole lot of gas. When
people fly they use too much
gas. This will help
the whole city
because we won't have

so much pollution
and traffic coming
from other cities.

We think this will take
about 5 years because we
already have most of the
tracks we just need to
put them to use. This
will be located all
over Chicago train
stations please think
about our plan.
It will save a lot of
gas and we won't pollute
so much.

Respectfully,

Edison Park Elementary
