Mayor Richard M. Daley  
City Hall  
121 N LaSalle 5<sup>th</sup> floor  
Chicago, IL, 60602

Our plan for Chicago is to make a special expressway. Only environmentally friendly can go on it.

The people that are driving on the express way, can go anywhere they want to. They can also go faster than other express way.

This will help the people of Chicago because we can save energy. We can keep the sky clean. Plus, we can global warming.

This will help the city as a whole because we will save the environment. Plus, nature will be more beautiful.

This will be located downtown, It will also go to different states,

So everyone can save the earth.

It will take about 17 years because you have to build the express ways and make environmentally friendly cars, that can go faster than they do today.

Our idea, will make people buy environmentally friendly cars, and save the planet.

If people don't use environmentally friendly cars on the express way police will give them a ticket.

Thankyou for your time,

Edison Park Elementary
