Dear Mayor Daley,

My name is \_\_\_\_\_

My school is called Funkl Academy. I am in room \_\_\_\_\_. I have 28 kids in my class. My favorite thing to do is math and work on the computer.

In social studies, we are learning about Chicago. I learned that the first Ferris wheel was created for the 1893 World's Fair in Chicago. Did you know that 60 people could ride in one car of the Ferris wheel?

I would like to share an idea with you of how to make Chicago even better. I think we should turn an old factory into an indoor swimming pool. This idea is important because kids will be able to have fun. Also, there can be people there to teach kids how to swim. I think this is a good idea of what to do with that old factory. Sincerely From,
