

5-11-09

Dear Mayor Daley

My name is _____ . I am nine years
old. I live in Chicago, Illinois. I go to school at
Hale school. My teacher is _____ . We learned a couple
things about Chicago.

I learned about Jane Addams and how she
helped Chicago with the Hull House. I also learned about
the famous hot dog. I also learned about the ketchup story
of a guy that was selling hotdogs and one guy bought
one and asked for ketchup and he didn't have any and
he promised to bring ketchup just for him.

I know a way to make Chicago a better community.
We should use only solar energy instead of regular
energy. We can probably do that if we give a speech.
I think the speech should say that it would

be a better world our food grows and we waste energy bad air goes in the air and does not help the plant grow

My idea is good because once we waste all the energy we're going to have to find a different kind of energy. We can start using solar energy so our world would be better. People would move in our country and our population would get bigger

Thank you for taking the time to read my letter. I hope you consider doing my idea, so please consider doing it. I'll make our country better. Thank you again for your time.

Sincerely
