

5-8-09

Dear Mayor Daley

I am a third grade student at Nathan Hale Elementary school. I love to swim and play baseball. My favorite thing to do in school is Science Math, and reading. To begin with, in school we've been learning about Chicago. How it use to have a trade post and in 1889 Jane Addams built a building were she would feed poor people and for people to sleep it was called The Hull-House.

To continue we should plant more flowers, trees and Fruits. I've notice that there is a lot of buldings that are emty so I wanted to take them down and plant flowers.

Third. Its important to keep our city beautiful So when people come from other

Cities, we want them to think it's a beautiful city.

Vast but not least our city will be beautiful

so no one will want to move out and people will want to move in.

Our city is important to us we have to make it look pretty.

In conclusion I think people should

volunteer to help make parks prettier with all kinds of animals and

flowers. I just hope you will like my idea.

Sincerely
