Dear Mayor Daley

I am a third grade student at Nathan Hale Elementary school. I have one sister and I like to play soccer in school we have studying that persons have a tradition post so they could exchange things.

To begin with I have been learning about Chicago that has change alot I learned that we need speed limits for we could know how much speed we need for a street.

To continue My idea is that we need more speed limits because cars have been crashed by other cars and people have been killed by cars.

Finally My idea is important for the

City because people are living save if we put more speed limits for nobody would be dead by cars going fast. The future will be great because theres been more people in the future and they would be save.

Last but not least Everybody would be save if theres more speed limits and they would be more people alive in the city.

Sincerely
