Dear Mayor Daley,

I am a third grade student at Nathan Hale Elementary School. I have two brothers. I'm the middle child. My favorite sport is basketball or baseball. My favorite subject is Math and Reading.

For the last few weeks we been learning about Chicago. I learned that Chicago used to have a trading post. We used to have alot of land, but now we have many buildings.

I have many ideas to help the city. My first idea is to is to put more cameras in streets because cars still past red lights. We need more water fountain because when ~~its~~ summer it gets

hot outside and you get thirsty.

My idea is important to the city because if people keep on passing red lights they could get in a accident and get hurt.

In conclusion my big idea is to put more cameras because people still past red lights. I think this is a good idea because could get in a accident and the could get hurt.

Sincerely,
