Dear Mayor Daley,

Hi my name is ..... In my house lives my mom, dad, big sister, little sister and me. I study at Nathan Hale School. I learn alot of stuff in this school.

In Chicago I learn that some poor and needed people don't eat so well because nobody helps them. And I learned that you can even help them in anything even if they are babies.

My plan and big idea is to not use trees for paper or pencils only use one (1) pencil and one note book so Earth's future will be better and safe.

My idea is important because if we use less trees Earth will be safe and nice because Earth is so important for us.

Thank you dear Mayor for your nice help.

Sincerely

your friend
