Dear Mayor Daley

I'm a student at Nathan He Elementary school. I like to skateboard when I get home. I sometimes go to the park with my friends.

My favorite sport is dodge ball. Recently for the last few weeks I've been learning about how to help Chicago. My idea is to put down speed bumps.

I learned about people pasting on trading posts. My idea is to eliminate guns knives and other powerful weapons so it won't kill any people.

My idea is important  
because so it will keep our country clean  
and make people happy.

Sincerely,
