

May 12, 2009.

Dear Mayor Daley,

Hello I'm

from Nathan Hale School. We are
doing a 5 paragraph paper about our
ideas for Chicago and about
Chicago.

I learned that Jane Addams
created Hull-House in Chicago.
Also Jane Addams helped the
poor and others. She also helped
many schools.

The main reason I wrote
this paper is I wanted to tell my
big idea for Chicago. My big idea is to change
cabs to bikes that can carry people like a

taxi, I think my idea is important to the city because it will save the city money because bikes do not need gas to drive. I think my idea will come clear for the city because bikes do not give out pollution and cars do and that is bad for the environment.

I think you should take my idea because it will save the city money for gas. And That will conclude my 4 paragraph paper to you Mayor Daley, the mayor of the city of Chicago.

Sincerely
