Dear Mayor Daley

Hello my name is

I'm in 3rd grade.

Three things I learned about the city

is lots of people were poor! And their houses were crowded in 1893. There was a depression and lots of people were fired from their jobs. So they came to Chicago.

My idea is we could build houses and give food to the homeless people in Chicago.

It would be a good idea because less people would die of hunger and people will be warm in their houses and less people would die of being cold.

and they will have shelter
homeless people would ^{not} have to look
for food and that will make
Chicago a better place

Mayor Daley if you
ever need help I would be
happy to work for you

Sincerely
