Dear Mayor Daley

My name is . I take care of the city and I make sure that my sister is safe.

I wish there were more police man and fire man. I also wish there were more safety in the city. I want no more gangs in Chicago. I think there should be bicycles instead of cars.

Cars make pollution in the air.

We learned about Jane Addams. She created the Hull House for the poor people. I hope you make my changes.

Sincerely,
