

Dear Mr. Mayor

We are third graders from
Henson Elementary School. Our
School is at 1326 S. AVERS on
the west side of Chicago.
Our neighbor hood has
some issues that need
to be solved. We have an
idea to help solve one
of them. Our problem is
that people are getting killed
and gang bangers are on
the street. They are shooting
at people they don't even
know, and shooting at their
enemies. Also they rob people
or bust in there houses, and
they steal peoples cars and
take their money. We think that
you should ban all guns from getting
made or sold. We would like you to make
this a law, and put metal detectors in all
stores and public places. That way we can
see who has the guns better. I will

also make people feel safer.

It will take a lot of money so we could ask people in our neighborhoods to donate extra money to help. This is a great idea that will help a lot of people feel safe.

And I hope you can help us with this.

Sincerely,
