

May 15, 2009

Dear Mayor Daley

My idea is to make people be friends, hug each other, and shake hands.

This will make Chicago a better place because I want people to be friends and stop being mean to one another and share and hug. The thing the city needs is police and more cars for everyone and more vans for every body so they can get where they need to go. I need a lot of house for everybody.

When the mayor makes changes Chicago will be different because people will be friends.

I will make them shake hands and

I will send letters and get them together. This is a great idea because the people are going to be friends.

Sincerely

MAY 12 9:00 AM
