

May 13, 09

Dear Mayor Daley,

→ My big idea is to help the poor people in Chicago.

They need food to eat.

Some people are not working.

People have lots of kids

to feed. They need food.

→ The city can build free food stores. People with money can give food to the stores for the poor people.

→ Chicago will be different if the poor had a free food store. People will not have to steal.

So as you can see

that's why I want the city  
city to  
help the poor.

Sincerely,
