

May 13, 2004

Dear Mayor Daley,

→ My big idea is to build better schools in Chicago. There should be separate schools for kids who want to learn and who don't want to learn.

→ My plan will help Chicago because kids who really want to learn should have their own school.

And kids who don't want

to learn should have  
their own school. They  
can be taught how to  
want to learn. The schools  
will be much better.

→ Mayor Daley, build two  
kinds of schools. One for  
the ones who want to learn  
and one for kids who don't  
want to learn.

→ Mayor Daley, see how  
my plan will work. Chicago  
will be a better place.

Sincerely,

[Redacted Name]
