

May 8, 2009  
Dear Mayor Daley,

My big idea is for every every school to have big gardens so kids can plant flowers and food.

The city can make my plan happen. Mayor Daley, you can tell every principal to hire men to make the land around the school ready for gardens. Then kids can plant food and flowers.

The kids will be healthier and schools will look prettier.

Chicago will look different and beautiful. Flowers will be everywhere and kids can eat from the gardens. I can see all the flowers and vegetables growing!

Mayor Daley, you see Chicago will be a better place, and a prettier city if all schools have gardens.

Sincerely,
