Dear Mayor Daley,

I think people should recycle more. I wanted to ask you if you could put up more recycling bins. You can put them on parks, and a few streets. In school we use a lot of paper. Can you put up signs at schools to use paper two times. If you do that we will be saving trees. Everyone buys cloths but when we grow they don't fit. So can you put up more donating places. I will be recycling because instead of throwing it away it can be used two times and the poor get more clothing. I hope you can make that happen.

Sincerely,
