Dear Mayor Daley,

I want to help Chicago to be a better place by cutting down less trees to save paper and oxygen for people. Also I want Chicago to be a better place by un-littering on the ground because it would make Chicago messy and I would want people to pick up any bottles, or cans on the ground and put it into the garbage can or recycling bins. And I want the streets to be fixed and clean and fix any pot holes so people wouldn't crash in the pot holes in Chicago.

Sincerely,
Matthew Santos
