May 13 2009

Dear Mayor Daley,

You should make more jobs for grown
ups. Because right now jobs are failing.

It would also make many people

happy. This is a very good change

because then parents won't be

poor and sad. It will take a

while but we still have to

keep up the hard work. In order

to do all this the city will have to

recycle to earn money to build

new jobs. Chicago will be a better

place because there will be more jobs.

Sincerely,
