Dear Mayor Daley,

I would like to tell you about a big idea I have about gym in school. My idea is to have longer gym so we could be skinnier and healthier. In order to make this plan happen, I think you would need to make the school days a little longer. We need different kinds of exercises like pushups, situps, and jogging so that our whole body will be in shape and we will get stronger and that we will learn better. We would also need more equipment. I hope that you will agree with this idea and that you can help make it happen.

Sincerely,
