

Chicago Changes: Careers, Products, Technology

What kinds of technology and work were required to produce a good in Chicago long ago?

Technology and Work that produced a _____ in Pioneer Time

Insert a product in the circle—a product that people still need today.

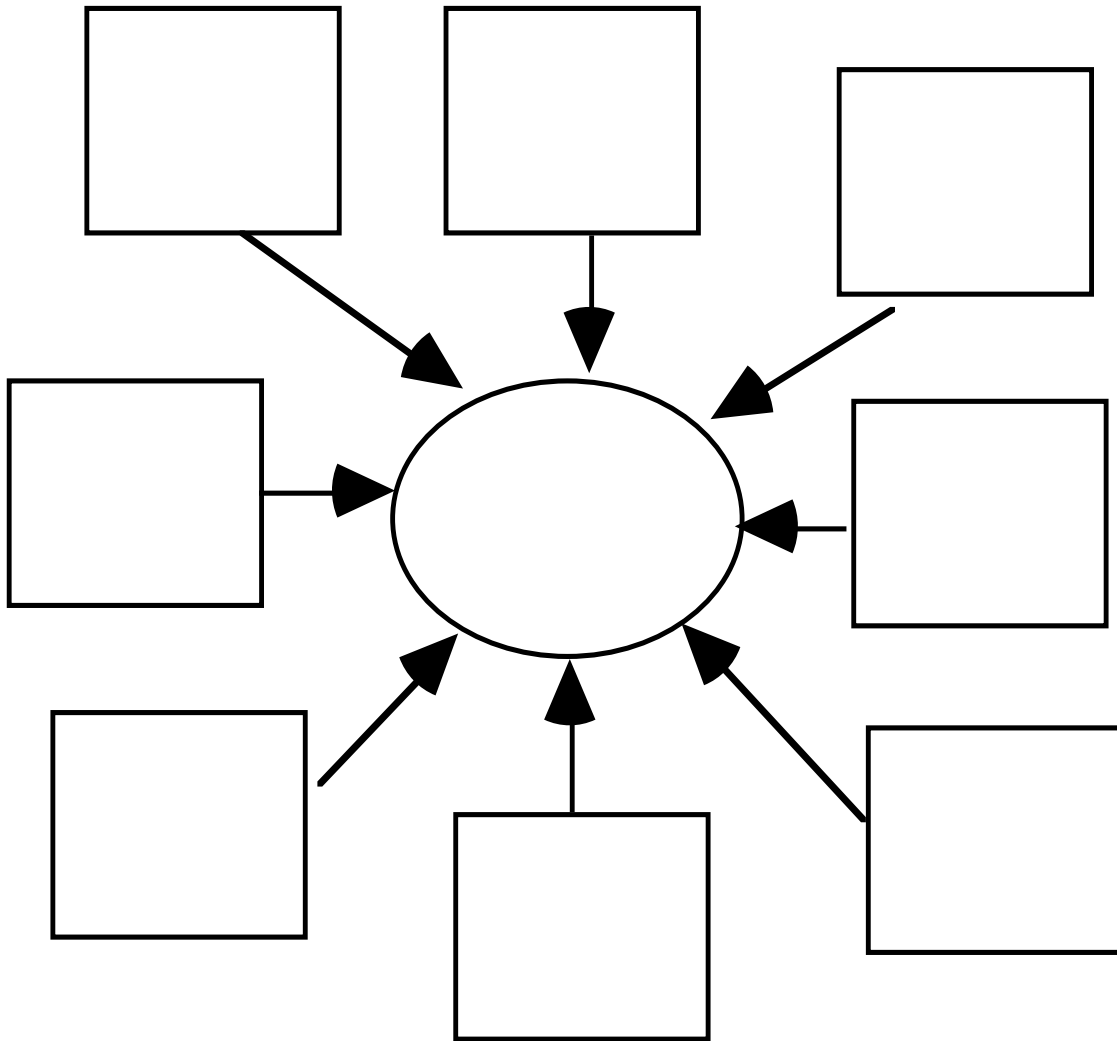

Then in the boxes note or draw the technology and tasks done to produce it.

What skills did workers need to produce it then?

Technology and Work that produce a _____ today.

Insert the same product in the circle—a product that people still need today. Then in the boxes note or draw the technology and tasks done to produce it.

Answer these questions in a discussion with another student:

- How have changes in technology affected the production of this product?
- How have the knowledge and skills that workers need to produce it changed?
- What changes in the knowledge and skills of workers and the technology they use do you predict will take place in the future?
