

May 15, 2009

Dear Mayor Papaley,

How are you doing? I think we could put recycle bins by every house. You could get volunteers that put recycle bins by every house. Then, we can tell the people to recycle. Then the people will recycle and our Earth will be clean. This is a great idea because it will be a beautiful place to go to. When the city is all clean it will be a beautiful place and ^{we will have} more people in our state.

Sincerely,
