Dear Mayor Daley,

How are you? I know you are thinking up some plans for our city. Can I share my big idea with you? First, I will tell you what it is. It is that I don't like when people put up the gas prices. When we go to the gas stations tell them to put the gas prices down.

Then, make a speech saying something about gas prices going down.

Lastly, put up some posters. Thank you for spending time to read my letter. Love,
