Dear Mayor Daley:

My name is _____. I am a student at Lincoln School. At Lincoln we are studying Chicago history. I am most interested in Jane Addams. She converted a mansion into a homeless shelter. The shelter provided food, classes, activities, and a roof for people in need.

I think, as Mayor, you should create more shelter homes because I see many people with no homes on the street. I think with more shelters families will have food, school, have some time to find a job, and they will have a roof over their head.

As a kid I worry about kids and their family. If they were in a shelter they would be safe, have food, water, and activities that they love.

Please provide more shelters
for the homeless.
Thank you for your consideration
of my idea.

Sincerely,
