

Dear Mayor Daley,

May 10, 2009

There is one thing that I wanted to tell you, and that is we need better education for Chicago kids. Let me explain.

I think that there should be better pay for teachers because they teach all the Chicago kids. If they get paid more money more people would want to become CPS teachers. I also think that it's not fair for the teachers because they don't get that much money. I really think they should be paid as much as doctors or lawyers. Teacher's jobs are very important because they help the children learn new things.

I wanted to ask you, will you help me solve this problem? One you can help is by taking some of the city's money and giving it to CPS.

Sincerely,

[Redacted Signature]
