

Dear Mayor,

I want Chicago to be very clean. I want people to walk around and pick up litter. We need more garbage trucks. Can we have earth day two times a season, put cameras every where to catch people who litter, and we need more laws.

We need people to walk around and clean up litter. If we do it, the city will be healthy. People will do great if everyone does it.

We need more garbage trucks to get trash cans. Our alleys will be cleaner. It won't attract rats too.

Can we have earth day two time a season? Then we will care more for the earth. People will respect the earth even more.

We need more cameras to catch people littering. If we do it we will send them to jail or give them a talk.

Can we have more laws? If we have more laws we will do more good things. People will listen more.

Please do these things. It will be a better place. And we will like the earth even more.

Sincerely,
