

Dear Mayor Daley,

There are some changes I think the city needs. One, is that there should be more garbage cans around the city. It is important because there won't be as much litter on the ground. Another change is that the city should fill up the potholes so that people won't damage their cars. Finally, I think the city should have free internet so everybody has access to the internet. These changes might take a lot of time and money but it will help Chicago be a better place!

Sincerely,
