

Dear Mr. Mayer,  
Please give us more green space. It will make parks bigger because you're extending the park. There's less noise so you can sleep and take naps. There might be more trees than road near your house. You will have to take down fences, unless there's in a zoo, to make the parks bigger. Last, but not least, people will learn more about wild life because there will be more wild life. One more thing that I forgot, there will be more areas to play sports because there's more green areas. It's going to be a long time and be a good amount of money. I hope you like my ideas. I like less noise.

Sincerely,  
/
