

Dear Mr. Mayor

I think smoking should be illegal. It has a bad effect on the environment. Try to stop people from smoking.

One reason is old people. If they smoke it can kill them. And if they fall and the cigarette hits something flammable it can make a fire.

Another thing is people who don't breathe in smoke from people who smoke. It can make people that don't smoke sick. And they have to go to the doctor. And pay for someone else's deeds.

Another reason is it has a bad effect on the environment. It can kill animals too. And kills any life form.

You can try to stop people from smoking by saying it on TV. Or sending out posters. Try and stop smoking.

Sincerely, . . . .
