Dear Mayor Daley:

Do you really care about recycling?

- I live in Old Town Chicago. One thing that's bugged me for a while, is that we are not offered a blue bin.

There are some other people in Old Town who want blue bins too. For example; Shannon, has been trying to get blue bins.

I actually know **1** thing **YOU** can do. If this wouldn't be too bad you could have blue bins dropped off at peoples houses every Monday morning throw away our trash then Tuesday they'll pick the bins up.

If I see more landfills I'll be very sad. So if you let us recycle then the trash/landfills would definitely increase.

Thank you for your time reading this and please get us blue bins!

Sincerely,
