

May 14, 2009

Dear Mayor Daley,

Do you recycle? My name is [REDACTED] I live in Old Town, [REDACTED] Last year we moved to Seattle for the whole year. In Seattle, everybody recycles. It was very surprising to come back here and see all the garbage. I feel that you can change all this. I know you are very busy running the city, but have you thought of doing this? Please take your time to read this environmentally friendly letter.

Now, back to my point: if you do not recycle it is like you do not care about this city or this world! You may see an idea, a terrible one sometimes, and not use it, but I am hoping you like my idea and use it. My mom and I both agree that there should be a citywide recycling program. That way we would have a lot less garbage and rats. In Chicago there is garbage lying all around looking poisonous to our great city.

A citywide recycling program would help Chicago be more natural and healthy. Why? Because there would be less garbage lying around! This would also give our citizens more pride in our great city. There are more ways to be environmental than just planting a tree. I know we can get a recycling program if you help.

Please let me know if I can help you in any way. [REDACTED]

Sincerely,
[REDACTED]
