

May 14, 2009

Dear Mayor Daley:

My name is [redacted]

I am 9 years old and I am in 3rd grade at Lincoln Elementary school.

I am writing this letter to warn you about how horrible the hot lunch is. I hope you could help me change that.

I had hot lunch a few times and it tasted really bad and I believe they are not healthy, not nutritious. I propose we provide better and healthier food for our public schools. We can do that by asking the schools to prepare their own food from organic meats, fruits and vegetables.

I think by doing this it will make the kids healthier. On the other hand, this can help our schools by saving money. The schools can grow the vegetables on their own in their gardens or in their green houses. If the schools do not have the land to grow the vegetables, they can buy them from our Chicago farmer's markets.

Mayor Daley, I hope you can help me provide better food for our schools. That way we can have healthier kids, help the environment and have more jobs in our schools and local communities.

Sincerely
[redacted]
