Marconi community academy

230 N. Kolmar

Chicago Ill 60612

Dear Mayor Daley,

My plan for making Chicago a better place to live is I want to replace these vacant lots, and abandoned building with more parks, and apartments closer to our community. We could have more recreational activities within our communities. We could have basket ball teams, Football teams and other after school school activities. This would help keep young kids off the street and focus on other things that would help them in life. This would make Chicago a better place to live. It will take time and money but it could be very useful.

Sincerely,
