Dear Mayor Daley

My better plan to make  
Chicago a better place to  
live is by improving our  
neighborhood libraries.

Our libraries don't have lots  
of things that are in  
other areas. I think if we had  
good books that are new  
and interesting that would  
bring a lot of children  
to the library. I also think  
adding a big family room to  
each library would be great  
you can bring everybody into  
the room at night and read  
together. That would let parents  
and children read.

more together, sometime  
you could even show  
movies it would be fun  
I think this will make  
Chicago a better place  
for all.

Sincerely,

Sincerely

Darrell
