Dear Mayor Daley

My plan for making Chicago a better place to live is having a musical program in all schools. I think children should have a chance to see if they are musical talents while they are in school. It will give them a chance to see if they have any musical talents while they are in school. It will give them a chance to play so many musical instruments. The schools could have music so the children can show what they are learning. More parents might come out to see their children perform that would improve the way some parents tell about our schools.

This is my plan for making Chicago a better place to live. I know it would take a long time and a lot of money but it will be worth it.

Sincerely
