

The Connected Classroom--Learn who your learners are.

Math Interest Survey

1. What is an important math skill?
2. What is a good way to learn math?
3. What kind of math is difficult?
4. What kind of math is easy?
5. What do you like about math?
6. What don't you like about math?

Put your answers in the boxes. Your teacher can organize this as a project—your class can make a bar graph if you cut the boxes and sort them with other students.
