

May 14, 2009

Dear Mayor Richard M. Daley,

Our big idea will blow your mind!
It will help lots of people's lives.
Here is our great idea.

First, we can use the vacant lots
around the city to build homes for
homeless people. We want to build homes,
so that everyone can have a place to
live.

Second, we can go door to door
to ask people to volunteer help us
build the houses on the vacant lots.

Third, we can go to a lumber yard
and ask the person, if he can he
donate some wood for the houses.

After the houses are built, we will
put up signs to let the homeless people
know that they have a place to stay.

The homeless people will have to volunteer
at the shelter in order to stay there.

We hope you liked our great plan
to make Chicago a better place. By
helping the homeless, Chicago will
be even better known as a nice city.

Thank you for your time!

Sincerely,
