

Dear Mayor Daley,

We have millions of ideas, but the one we choose is making educational tv mandatory for kids. We choose this idea because violence and inappropriate things make children not focus on school work.

First, we think that educational tv is good for all ages because it provides learning skills and helps little children behave. Good tv helps kids have very good manners. And also it makes be children by building character.

We think that our plan  
should happen because  
kids could now be smarter  
They should not watch garbage  
on television. Please Mayor  
Daley help us to make this  
new law for all kids.

Love,
