

May 14, 2009

Dear Mayor Richard Daley,

How are you doing? We have a fantastic idea to make Chicago a better place to live. Our big idea is to clean some parks and places in Chicago.

First, we need to go door to door to get volunteers to help clean up. My teacher said she would get volunteers to help clean parks on the North Side of the city, and we can get volunteers on the South Side of the city.

Second, we will ask Home Depot, or Lowes to donate garbage bags and working gloves to all the volunteers that will be helping.

Once we get all the supplies and the volunteers, we can pick one day where the whole city goes out and cleans up.

Once we get all the supplies and the volunteers, we can pick one day where the whole city goes out and cleans up. We can call it "Chicago Cleans Up Day!"

We'll that's our great idea - we hope that you will put our plan into action and make Chicago a clean, even more beautiful city.

Thanks for reading our letter!
Have a great day!

Sincerely
