

Dear, Mayor Daley

My name is _____

I am in 3rd grade at monroe school.

I learned many important events about Chicago.

My big idea is to improve parks, clean bathrooms in parks and more grass and more space and clean all the play grounds that are dirty.

I think my idea will help by helping to recycle and respecting others and their property and taking care all the girls and boys that they don't have play grounds and nothing to eat.

Sincerely _____
