

Dear Mr. Mayor

5-15-09

I want Chicago to have more skate board parks and basketball courts. Because we want kids off the street so they won't be in trouble, but we need new stuff like basket ball parks, so we won't worry about them getting in trouble or hurt at all.

Every kid should get off the streets and we want stuff like skate board parks even kids off the street and never on the streets.

We should not let kids on the streets without adults that's how they get shot.

I want more parks and more skate board parks.

Sincerely yours
