

Dear Mr. Mayor

We have been learning about Chicago's History I have a couple things to change Chicago, My plan is when ever you go outside or on a walk, look out for trash. That will make our world way better. Please pick my ideas then you wont see anymore gum stuck to the floor, or news papers sitting around. And dont make as much paper because it hurts us and kills trees. If you dont have anything to equip then ask a neighbor to equip a pair of gloves and at least two groceric bags because there will be alot of trash.
