Dear Mayor Daley,

I want to make Chicago a better place. I know you and your wife met my brother in high school,

But back to the point. I want to build more buildings so the homeless can have a job. They can keep some of the money but give some to the bank. Some people could work part-time so they can give that money to the bank. The economy is going real low I want a way to help I come up with good choses. And Mr. Daley I don't want to lose my home or my mom & dad's brother. Thank you for all that you have done.

Sincerely,
