Dear Mr. Mayor

I'm _____ and i'm in
3rd grade. My classroom has been
learning about Chicago and here are
some ideas to make it a better
place. A big problem in Chicago is
the trash on the streets. To solve
this problem we could put more
trash cans on the Chicago streets.
And to get enough money we
could do a fundraiser. And by
the time all the trash cans are
set up, people will notice them and
throw their garbage in there instead
of the streets. Use my plan if you
don't want trash on the streets.

From,
