Dear Mayor Dauleu

My name is

I

go to Murray Language Academy

I would like to take care of the earth. For example there are a lot of people littering now. We need to take care of the earth and make it a better place.

People should stop littering and start cleaning. So, the world can be clean.

Maybe you could make a foundation, where people can help stop littering and clean the area's ever week. Then maybe our earth can be a better place.

Sincerely
